PROFESSIONAL SUMMARY

Hands-on experience through internships in Data Analytics and Data Science. Skilled in Python, Excel, Power BI, and SQL, with experience building dashboards and deriving actionable insights from datasets. Seeking an entry-level Analyst role.

INTERNSHIPS

Power BI Internship - *Topdataworks, Chennai* Aug 2025

- Built interactive Power BI dashboards analyzing YouTube campaign engagement and performance, using KPIs, cards, filters, and data models for effective visualization. Gained hands-on exposure to Scrum methodology and BI reporting practices.

Data Analytics Internship - *Cloud Institutions, Coimbatore* July 2025

- Developed interactive Power BI dashboards using advanced features such as tooltips, slicers, drill-down, drill-through, DAX calculations, data modelling, and data transformation (Power Query) to analyse datasets and derive meaningful insights.

SKILLS

Programming Languages: Python, SQL

Data Analysis & Visualization: Microsoft Excel, Power BI, Tableau, Business Intelligence, Statistical Analysis

Power BI: Data Modeling, DAX, Power Query, Star Schema, Data Cleaning, Interactive Dashboards, KPI Reports, Data Visualization

Microsoft Excel: Pivot Tables, XLOOKUP, VLOOKUP, INDEX-MATCH, Power Query, Conditional Formatting

SQL: Joins, Subqueries, Window Functions, CTEs, Views, Stored Procedures, Triggers, Set Operators

Version Control & Tools: Git, GitHub, MySQL Workbench

Data Analytics: Data Cleaning, Data Transformation, ETL, Dashboard Development, Reporting

Soft Skills: Teamwork, Communication, Adaptability

PROJECTS

Live Agriculture Market Intelligence Dashboard *github.com/Manojkumar-0915/Agriculture-Market-Intelligence-Dashboard*

- Developed a live multi-page Power BI business intelligence dashboard by integrating the Government of India Open Data API using Power Query, enabling on-demand data refresh to retrieve the latest available government market data.
- Built interactive executive, commodity, state, and market-level dashboards with dynamic filtering, created DAX measures and visualizations to analyze agricultural market prices and trends, and designed comprehensive reports for data-driven decision-making.

E-Commerce Sales & Customer Analytics Pipeline *github.com/Manojkumar-0915/ecommerce-sales-analytics-pipeline*

- Developed an end-to-end ETL pipeline using Python and Pandas to extract, transform, and load e-commerce data from live REST APIs into MySQL, processing 194 products, 208 customers, and 800 sales transaction line items.
- Designed a Star Schema data model with product, customer, and sales fact tables, and built interactive Power BI dashboards using SQL queries and DAX measures to analyze sales, product, category, and customer performance.

Cavins Sales Analytics & Demand Forecasting *github.com/Manojkumar-0915/Cavins-Sales-Analytics*

- Developed a sales analytics and demand forecasting pipeline using Python, Pandas, and Statsmodels to analyze 141K+ sales records across 10 products and 15 districts, identifying seasonal demand patterns and sales trends.
- Evaluated multiple time-series forecasting models and achieved 0.90% MAPE with the Holt-Winters model, then built a 3-page interactive Power BI dashboard using DAX to visualize demand forecasts, product performance, and district-level sales insights.

CERTIFICATIONS

Data Analytics – Besant Technologies

- Completed comprehensive training in Data Analytics covering Microsoft Excel, SQL, Python, Power BI, Tableau, Statistics, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, and Dashboard Development.

Data Science Using Python – SWAYAM

- Completed a 12-week SWAYAM course in Data Science Using Python, scoring 67% and learning Python, data preprocessing, visualization, statistical analysis, EDA, and machine learning fundamentals.

EDUCATION
